Money, Banking and the Financial System

(220:301:10) Fall 2017

Dr Raymond Stone NJ Hall --Room 106B

E-Mail: raymond.stone@rutgers.edu

Office Hours: 2:45-3:30 Mondays and Wednesdays

Class meets Mondays/Wednesdays 1:10pm to 2:30pm

Room A5 Frelinghuysen Hall, CAC

Prerequisites: Eco 102 & 103 (This is a lower level elective)

December 23, 1913 Woodrow Wilson signed into law the Federal Reserve Act. We are now a few years beyond the 100th anniversary of the Fed. As such it is appropriate that we spend some time in class studying the history of the Fed.

The world of Money, Banking and the Financial System has changed significantly in recent years. Concepts such as "Too Big to Fail", and the "Volcker-Rule" have been incorporated into recent legislation (Dodd-Frank).

The Fed reached the so-called "Zero-Bound" back in late 2008 that is when the traditional policy rate is effectively at zero. In late 2015 the Fed moved off the zero-bound, but still has a way to go before the policy rate is fully normalized. What were the unconventional tools used by the Fed, and did they work? How will the Fed unwind these unconventional policies?

Welcome to Money, Banking and the Financial System

These topics and more will be discussed in class.

Final Exam

To avoid any confusion it is policy to display the date and time of the final exam on the front page of the syllabus.

Date: Wednesday, December 20, 8:00am

Grading Policy

First Exam 40% Final Exam 50% Assignments 10% Make-Up Exams will only be given under extraordinary circumstances. Students should check with me before missing an exam to see whether their particular circumstances meet my very limited definition of extraordinary.

Learning Outcomes

Students who satisfactorily complete Money & Banking will understand the role of money and banks in the broader economy. Specifically, students should garner an understanding of the unique role of banks in the financial system. Students will learn how banks and other financial institutions make money, and allocate credit. Students will also have an appreciation for the money markets and bond market.

Students will also learn the relevance of the Federal Reserve and related central banking topics, including the causes, policy responses, and lessons associated with the recent financial market crisis.

Attendance Policy

Students are expected to attend every class. While I understand that such is not always possible, students should be aware that I will not provide individual review sessions. I will take attendance. Moreover, *students should understand that it is impossible to pass this course without regular attendance*.

Students are expected to attend all classes; if you expect to miss one or two classes, please use the University absence reporting website: http://sims.rutgers.edu/ssra/to indicate the date and reason for your absence. An e-mail is automatically sent to me.

Other

The University has established rather severe penalties for cheating. This link details the academic integrity disciplinary process: http://academicintegrity-rutgers.edu/academic-integrity-disciplinary-process

Textbook

Much has changed in the world of Money & Banking over the past few years. As a consequence most textbooks are out of date. I teach largely from Power-Point presentations, which I make available to students. I don't teach directly from a textbook. That said, I do recommend that students have access to a standard text. The textbook below is popular and expensive (\$236), currently this text is in its 11th edition. Buy the 10th (about \$35) or even 9th edition, save money.

The Economics of Money, Banking and Financial Markets, 11th ed. Frederic S. Mishkin https://www.amazon.com/Economics-Money-Banking-Financial-Markets

Homework Assignments

There will be a number of homework assignments. These assignments are designed to get your "hands dirty" with economic and financial market data. You will be required to download data from Federal Reserve and other websites, manipulate the data in an Excel spreadsheet, draw graphs using these data, and reflect upon the underlying story captured in these graphs.

Students should be aware that I am not looking for perfection; each assignment should take only about 1/2 hour. Your mission is an attempt at some basic level of economic research. My thinking is that you will understand the concepts better by actually playing with the data.

Students should use the "Assignments" function on Sakai to turn in assignments. Full credit will be given to all "good-faith" attempts at completing assignments. Thus, make sure you turn in all assignments on time. This is an easy way of securing the full 10% contribution to your final grade.

Class Notes

I will use Power-Point presentations in class. I will make these available to you in advance (via Sakai). I recommend that you use printouts of these presentations to take class notes. Some students have found it useful to compile these presentations in a binder.

Lesson 1--What Is a Bank?

Other Resources

Just In Case Web App

http://codu.co/cee05e

Access helpful mental health information and resources for yourself or a friend in a mental health crisis on your smartphone or tablet and easily contact CAPS or RUPD.

Counseling, ADAP & Psychiatric Services (CAPS)

(848) 932-7884 / 17 Senior Street, New Brunswick, NJ 08901/ http://www.rhscaps.rutgers.edu/ CAPS is a University mental health support service that includes counseling, alcohol and other drug assistance, and psychiatric services staffed by a team of professional within Rutgers Health services to support students' efforts to succeed at Rutgers University. CAPS offers a variety of services that include: individual therapy, group therapy and workshops, crisis intervention, referral to specialists in the community and consultation and collaboration with campus partners.

Violence Prevention & Victim Assistance (VPVA)

(848) 932-1181 / 3 Bartlett Street, New Brunswick, NJ 08901 / http://www.vpva.rutgers.edu/ The Office for Violence Prevention and Victim Assistance provides confidential crisis intervention, counseling and advocacy for victims of sexual and relationship violence and stalking to students, staff and faculty. To reach staff during office hours when the university is open or to reach an advocate after hours, call 848-932-1181.

Disability Services

(848) 445-6800 / Lucy Stone Hall, Suite A145, Livingston Campus, 54 Joyce Kilmer Avenue, Piscataway, NJ 08854 / https://ods.rutgers.edu/

Rutgers University welcomes students with disabilities into all of the University's educational programs. In order to receive consideration for reasonable accommodations, a student with a disability must contact the appropriate disability services office at the campus where you are officially enrolled, participate in an intake interview, and provide documentation: https://ods.rutgers.edu/students/documentation-guidelines. If the documentation supports your request for reasonable accommodations, your campus's disability services office will provide you with a Letter of Accommodations. Please share this letter with your instructors and discuss the accommodations with them as early in your courses as possible. To begin this process, please complete the Registration form on the ODS web site at: https://ods.rutgers.edu/students/registration-form

Scarlet Listeners

(732) 247-5555 / http://www.scarletlisteners.com/

Free and confidential peer counseling and referral hotline, providing a comforting and supportive safe space.
